FOR THOSE ASKING QUESTIONS ABOUT LIFE AND GOD
THROUGH A CHRISTIAN LENS

Are you struggling with the big questions of life? Have you been wounded by institutional religion or clericalism? Have you not gotten satisfactory answers to hard questions about the human experience? Do any of the following questions speak to you?

- How should the Bible be understood?
- Is God violent?
- What about the Church as a human institution?
- How do I understand human sexuality in a way that integrates the body and the spirit?
- How do we view other religions, lifestyles, and spiritual traditions?
- What are the greatest concerns of our time and what is my role in doing something about them?

If so, discover the power of group coaching and social healing. You will realize you are not alone and gain valuable insights into how others have dealt with the same challenges you are battling. We will grow and learn together and leverage the power of a safe place, facilitated by an expert in the field, that inspires and educates us on how to transform our old pain into new life. Contact us for a phone consultation to learn more.
