

# *Leadership Renewal for Churches*

HEAL, TRANSFORM, AND RENEW YOUR LEADERSHIP TEAM

---

Does your leadership staff struggle with unresolved issues, conflict avoidance, and residual emotions that limit creativity and harbor resentments? If so, your team is in need of renewal, a type of renewal that transforms the pain of the past into deeper understanding of what's possible for the future.

Silicon Valley Therapy's Leadership Renewal for Churches program includes the following modules. You can choose one or all of these modules for your church:

## **1. Healing the past**

Process organizational wounds in a safe, contained, space guided by a professional mental health provider.

## **2. Effective communication**

Understand and implement healthy dialogue where everyone wins and consensus is built.

## **3. Discerning strengths and gifts**

Use personality assessment tools to understand yourself and others on your staff in order to accentuate each person's strength and complement areas of challenge.

## **4. Coaching and/or psychotherapy**

Further care for individuals or small groups that need to process stuck or deeper issues and wounds.

## **5. People management consulting**

Bring all the learning from the previous modules into a comprehensive plan that can be implemented for leadership team renewal.

To learn more about Silicon Valley Therapy's Leadership Renewal for Churches program, contact Dr. Thomas Lucking, PhD. Dr. Lucking has degrees in psychology and theology. He has worked in churches and mental health settings to help people and staff become the best they can be for the work they have been called to do. Dr. Lucking will discuss your specific situation and recommend the specific modules that are appropriate for your church renewal. Costs and logistics will also be discussed. Silicon Valley Therapy has a team of providers to help your church heal, transform, and renew.
